SHERIDAN ROAD SCHOOL

DEDICATION

This year our annual yearbook is dedicated to the Sheridan Road School District. On January 9, 1864, the first piece of property was purchased in the name of the school district. That makes us over 100 years old. A century of progress has made it possible for the youth of our school district to receive a well balanced and sound education.

The efforts of the citizens of the community, the school board, school administrators, teachers, and school employees will make it possible for future generations one hundred years from now, to be able to look back at a second century of continued progress.

"We will continue....."
